The closest prior art of Downs et al. (U. S. Patent 6,574,609) teaches securely distributing electronic content over network, and distribution involves content provider, content hosting sites, electronic digital content stores, end user devices, and clearinghouses.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The article titled "Music Over the Net: The Next Big Thing in Electronic Commerce?" (Allen, Telecommunications, v32n6, pp s2-s5, June 1998, ISSN: 0278-4831) discloses promoting distribution of music through on-line retailers.
